2 - Contract

Variety

Heirloom

1st Purchase

2017

Altitude

1900-2100 msl

We are excited to launch our first of many amazing coffees from Ethiopia this year. Duromina has been a perennial early crop favorite of ours for nearly a decade. Small scale farmers bring their harvests to the Duromina washing station and if there's anything to say about these lots is that they are consistently good.

Fresh off the grind the aromatics are sweet and floral. In the cup the sweetness is prevalent from hot to cold and is joined by a lovely peach mid-tone, lively lemon-lime like acidity and a lovely silver needle finish. If you've been eagerly awaiting the new crop Ethiopia season, Duromina will get you off to a great start!

Variety Info:

Heirloom: "Landrace" and "Heirloom" are common terms used to describe varieties out of Ethiopia.

Heirloom is a catch-all term; giving a generic term to all varieties grown. There are over 10,000 varieties alone in Ethiopia.

Landrace generally refers to varieties that evolved with no human interference; not crossbred or pollinated.
